Item 4 **Advisory Business**

A. Legacy Solutions, LLC (the “Registrant”) is a limited liability company formed in the Commonwealth of Pennsylvania June 24, 2022. The Registrant became registered with the U.S. Securities and Exchange Commission in September 2022. The Registrant is owned by Daniel Danese, Ciara Danese Price, and Jeffrey Hall. Mr. Danese also serves as the Registrant’s Managing Member.

B.

INVESTMENT ADVISORY SERVICES

The Registrant provides discretionary and non-discretionary investment advisory services on a *fee* basis. Registrant’s annual investment advisory fee may include investment advisory services, and, to the extent specifically requested by the client, financial planning and consulting services. In the event that the client requires extraordinary planning and/or consultation services (to be determined in the sole discretion of the Registrant) or maintains less than \$1,000,000 in assets under the Registrant’s management, the Registrant may determine to charge for such additional services, the dollar amount of which shall be set forth in a separate written notice to the client.

The Registrant provides investment advisory services specific to the needs of each client. Before providing investment advisory services, an investment adviser representative will ascertain each client’s investment objectives. Thereafter, the Registrant will recommend that the client allocate investment assets consistent with the designated investment objectives. The Registrant primarily recommends that clients allocate investment assets among various individual equity (stocks), debt (bonds) and fixed income securities, mutual funds and/or exchange traded funds (“ETFs”) in accordance with the client’s designated investment objective(s). Once allocated, the Registrant provides ongoing monitoring and review of account performance, asset allocation and client investment objectives.

It remains the client’s responsibility to promptly notify the Registrant if there is ever any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising Registrant’s previous recommendations and/or services.

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

The Registrant may provide financial planning and/or consulting services (including investment and non-investment related matters, including estate planning, insurance planning, etc.) on a stand-alone separate fee basis.

Prior to engaging the Registrant to provide planning or consulting services, clients are generally required to enter into an agreement with Registrant setting forth the terms and conditions of the engagement (including termination), describing the scope of the services to be provided and the portion of the fee that is due from the client prior to Registrant commencing services.

It remains the client’s responsibility to promptly notify the Registrant if there is ever any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising Registrant’s previous recommendations and/or services.

RETIREMENT PLAN SERVICES

The Registrant also provides retirement plan consulting/management services, pursuant to which it assists sponsors of self-directed retirement plans organized under the Employee Retirement Security Act of 1974 (“ERISA”). The terms and conditions of the engagement shall be set forth in a Retirement Plan Services Agreement between the Registrant and the plan sponsor.

If the plan sponsor engages the Registrant in an ERISA Section 3(21) capacity, the Registrant will assist with the selection and/or monitoring of investment options (generally open-end mutual funds and exchange traded funds) from which plan participants shall choose in self-directing the investments for their individual plan retirement accounts.

Miscellaneous

Limitations of Financial Planning and Non-Investment Consulting/Implementation Services. As indicated above, to the extent requested by a client, Registrant may provide financial planning and related consulting services inclusive of its advisory fee as set forth at Item 5 below (exceptions may occur based upon assets under management, special projects, etc., for which the Registrant may charge a separate fee). However, neither the Registrant nor its investment adviser representatives assist clients with the implementation of any financial plan, unless they have agreed to do so in writing. The Registrant does not monitor a client’s financial plan, unless specifically engaged to do so, and it is the client’s responsibility to revisit the financial plan with the Registrant, if desired.

Furthermore, although the Registrant may provide recommendations regarding non-investment related matters, such as estate planning, tax planning and insurance, the Registrant does not serve as an attorney or accountant, and no portion of its services should be construed as legal or accounting services. Accordingly, the Registrant does not prepare estate planning documents or tax returns.

To the extent requested by a client, the Registrant may recommend the services of other professionals for certain non-investment implementation purposes (i.e., attorneys, accountants, insurance, etc.), including certain of the Registrant’s representatives in their individual capacities as registered representatives of a broker-dealer and/or licensed insurance agents (See disclosure at Item 10.C below). The client is under no obligation to engage the services of any such recommended professional. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation from Registrant and/or its representatives.

If the client engages any recommended unaffiliated professional, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from and against the engaged professional. At all times, the engaged licensed professional(s) (i.e., attorney, accountant, insurance agent, etc.), and not the Registrant, shall be responsible for the quality and competency of the services provided.

Non-Discretionary Service Limitations. Clients that determine to engage the Registrant on a non-discretionary investment advisory basis must be willing to accept that the Registrant cannot affect any account transactions without obtaining prior consent to any such transaction(s) from the client. Therefore, Registrant will be unable to affect any account transactions (as it would for its discretionary clients) without first obtaining the client’s consent.

Independent Managers. Registrant may recommend that the client allocate a portion of a client's investment assets among unaffiliated independent investment managers ("Independent Manager(s)") in accordance with the client's designated investment objective(s). In such situations, the Independent Manager(s) will have day-to-day responsibility for the active discretionary management of the allocated assets. Registrant will continue to render investment supervisory services to the client relative to the ongoing monitoring and review of account performance, asset allocation, and client investment objectives. The Registrant generally considers the following factors when recommending Independent Manager(s): the client's designated investment objective(s), management style, performance, reputation, financial strength, reporting, pricing, and research. The investment management fees charged by the designated Independent Manager(s) are exclusive of, and in addition to, Registrant's ongoing investment advisory fee, subject to the terms and conditions of a separate agreement between the client and the Independent Manager(s). Registrant's advisory fee is set forth in Item 5 below.

Use of Mutual and Exchange Traded Funds. Most mutual funds and exchange traded funds are available directly to the public. Therefore, a prospective client can obtain many of the funds that may be utilized by Registrant independent of engaging Registrant as an investment advisor. However, if a prospective client determines to do so, he/she will not receive Registrant's initial and ongoing investment advisory services.

In addition to Registrant's investment advisory fee described below, and transaction and/or custodial fees discussed below, clients will also incur, relative to all mutual fund and exchange traded fund purchases, charges imposed at the fund level (e.g., management fees and other fund expenses).

Unaffiliated Private Investment Funds. Registrant also provides investment advice regarding private investment funds. Registrant, on a non-discretionary basis, may recommend that certain qualified clients consider an investment in private investment funds, the description of which (the terms, conditions, risks, conflicts and fees, including incentive compensation) is set forth in the fund's offering documents. Registrant's role relative to unaffiliated private investment funds shall be limited to its initial and ongoing due diligence and investment monitoring services. If a client determines to become an unaffiliated private fund investor, the amount of assets invested in the fund(s) shall be included as part of "assets under management" for purposes of Registrant calculating its investment advisory fee. Registrant's fee shall be in addition to the fund's fees. Registrant's clients are under absolutely no obligation to consider or make an investment in any private investment fund(s).

Risk. Private investment funds generally involve various risk factors, including, but not limited to, potential for complete loss of principal, liquidity constraints and lack of transparency, a complete discussion of which is set forth in each fund's offering documents, which will be provided to each client for review and consideration. Unlike liquid investments that a client may own, private investment funds do not provide daily liquidity or pricing. Each prospective client investor will be required to complete a Subscription Agreement, pursuant to which the client shall establish that the client is qualified for investment in the fund and acknowledges and accepts the various risk factors that are associated with such an investment.

Valuation. In the event that Registrant references private investment funds owned by the client on any supplemental account reports prepared by Registrant, the value(s) for all private investment funds owned by the client shall reflect the most recent valuation provided by the fund sponsor.

However, if subsequent to purchase, the fund has not provided an updated valuation, the valuation shall reflect the initial purchase price. If subsequent to purchase, the fund provides an updated valuation, then the statement will reflect that updated value. The updated value will continue to be reflected on the report until the fund provides a further updated value.

As result of the valuation process, if the valuation reflects initial purchase price or an updated value subsequent to purchase price, the current value(s) of an investor's fund holding(s) could be significantly more or less than the value reflected on the report. Unless otherwise indicated, Registrant shall calculate its fee based upon the latest value provided by the fund sponsor.

Interval Funds/Risks and Limitations. Where appropriate, Registrant may utilize interval funds (and other types of securities that could pose additional risks, including lack of liquidity and restrictions on withdrawals). An interval fund is a non-traditional type of closed-end mutual fund that periodically offers to buy back a percentage of outstanding shares from shareholders. Investments in an interval fund involve additional risk, including lack of liquidity and restrictions on withdrawals.

During any time periods outside of the specified repurchase offer window(s), investors will be unable to sell their shares of the interval fund. There is no assurance that an investor will be able to tender shares when or in the amount desired. There can also be situations where an interval fund has a limited amount of capacity to repurchase shares and may not be able to fulfill all purchase orders. In addition, the eventual sale price for the interval fund could be less than the interval fund value on the date that the sale was requested.

While an interval fund periodically offers to repurchase a portion of its securities, there is no guarantee that investors may sell their shares at any given time or in the desired amount. As interval funds can expose investors to liquidity risk, investors should consider interval fund shares to be an illiquid investment. Typically, the interval funds are not listed on any securities exchange and are not publicly traded. Therefore, there is no secondary market for the fund's shares.

Because these types of investments involve certain additional risk, these funds will only be utilized when consistent with a client's investment objectives, individual situation, suitability, tolerance for risk and liquidity needs. Investment should be avoided where an investor has a short-term investing horizon and/or cannot bear the loss of some, or all, of the investment. There can be no assurance that an interval fund investment will prove profitable or successful. In light of these enhanced risks, a client may direct Registrant, in writing, not to purchase interval funds for the client's account.

Socially Responsible (ESG) Investing Limitations. Registrant does not maintain or advocate an ESG investment strategy but will seek to employ ESG if directed by a client to do so. If implemented, Registrant shall rely upon the assessments undertaken by the unaffiliated mutual fund, exchange traded fund or separate account portfolio manager to

determine that the fund's or portfolio's underlying company securities meet a socially responsible mandate.

Socially Responsible Investing involves the incorporation of Environmental, Social and Governance ("ESG") considerations into the investment due diligence process. ESG investing incorporates a set of criteria/factors used in evaluating potential investments: Environmental (i.e., considers how a company safeguards the environment); Social (i.e., the manner in which a company manages relationships with its employees, customers, and the communities in which it operates); and Governance (i.e., company management considerations). The number of companies that meet an acceptable ESG mandate can be limited when compared to those that do not and could underperform broad market indices.

Investors must accept these limitations, including potential for underperformance. Correspondingly, the number of ESG mutual funds and exchange-traded funds are limited when compared to those that do not maintain such a mandate. As with any type of investment (including any investment and/or investment strategies recommended and/or undertaken by Registrant), there can be no assurance that investment in ESG securities or funds will be profitable or prove successful.

Portfolio Activity. Registrant has a fiduciary duty to provide services consistent with the client's best interest. As part of its investment advisory services, Registrant will review client portfolios on an ongoing basis to determine if any changes are necessary based upon various factors, including, but not limited to, investment performance, fund manager tenure, style drift, account additions/withdrawals, and/or a change in the client's investment objective. Based upon these factors, there may be extended periods of time when Registrant determines that changes to a client's portfolio are neither necessary nor prudent. Clients nonetheless remain subject to the fees described in Item 5 below during periods of account inactivity.

Seminars. The Registrant may offer financial wellness seminars designed to help educate and empower groups seeking general advice on investing and other areas of personal finance. The content of these seminars will depend upon the goals of the participants.

The Registrant's seminars/workshops are educational in nature and do not involve the recommendation or sale of any specific investment products. Any information presented during a seminar will not be based on the individual needs of an attendee, nor does the Registrant provide individualized investment advice to attendees during these general sessions. Attendees are reminded should they need individualized investment advisory services they may engage the investment professional of their choice.

The Registrant generally requires attendees to purchase tickets to seminars it hosts, however the Registrant may choose to reduce or waive the ticket fee for certain attendees at its sole discretion.

Cash Positions. Registrant treats cash as an asset class. As such, unless determined to the contrary by Registrant, all cash positions (money markets, etc.) shall be included as part of assets under management for purposes of calculating Registrant's advisory fee. In addition, while assets are maintained in cash, such amounts could miss market advances. Depending upon current yields, at any point in time, Registrant's advisory fee could exceed the interest paid by the client's cash positions.

Retirement Plan Rollovers—Conflict of Interest. A client or prospective client leaving an employer typically has four options regarding an existing retirement plan (and may engage in a combination of these options): (i) leave the money in the former employer’s plan, if permitted, (ii) roll over the assets to the new employer’s plan, if one is available and rollovers are permitted, (iii) roll over to an Individual Retirement Account (“IRA”), or (iv) cash out the account value (which could, depending upon the client’s age, result in adverse tax consequences). If Registrant recommends that a client roll over their retirement plan assets into an account to be managed by Registrant, such a recommendation creates a conflict of interest if Registrant will earn new (or increase its current) compensation as a result of the rollover. If Registrant provides a recommendation as to whether a client should engage in a rollover or not, Registrant is acting as a fiduciary within the meaning of Title I of the Employee Retirement Income Security Act and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts. No client is under any obligation to roll over retirement plan assets to an account managed by Registrant.

Bitcoin, Cryptocurrency, and Digital Assets. For clients who want exposure to Bitcoin, cryptocurrencies, or digital assets, the Registrant, will advise the client to consider a potential investment in corresponding exchange traded securities, or an allocation to separate account managers and/or private funds that provide cryptocurrency exposure. Bitcoin and cryptocurrencies are digital assets that can be used for various purposes, including transactions, decentralized applications, and speculative investments. Most digital assets use blockchain technology, an advanced cryptographic digital ledger to secure transactions and validate asset ownership. Unlike conventional currencies issued and regulated by monetary authorities, cryptocurrencies generally operate without centralized control, and their value is determined by market supply and demand. While regulatory oversight of digital assets has evolved significantly since their inception, they remain subject to variable regulatory treatment globally, which may impact their risk profile and liquidity.

Bitcoin, cryptocurrency, and digital asset investments are speculative and subject to extreme price volatility, liquidity constraints, and the potential for total loss of principal. The speculative nature of digital assets notwithstanding, the Registrant may (but is not obligated to) utilize crypto exposure in one or more of its asset allocation strategies for diversification purposes. Investment in Bitcoin, cryptocurrencies, or digital assets carry the potential for liquidity constraints, extreme price volatility, regulatory risk, technological risk, security and custody risk, and complete loss of principal.

Clients can notify the Registrant, in writing, to exclude cryptocurrency exposure from their accounts. Absent the Registrant’s receipt of such written notice from the client, the Registrant may (but is not obligated to) utilize cryptocurrency as part of its asset allocation strategies for client accounts.

Client Obligations. In performing its services, Registrant shall not be required to verify any information received from the client or from the client’s other professionals and is expressly authorized to rely thereon. Moreover, each client is advised that it remains their responsibility to promptly notify the Registrant if there is ever any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising Registrant’s previous recommendations and/or services.

Cybersecurity Risk. The information technology systems and networks that Registrant and its third-party service providers use to provide services to Registrant’s clients employ

various controls that are designed to prevent cybersecurity incidents stemming from intentional or unintentional actions that could cause significant interruptions in Registrant's operations and/or result in the unauthorized acquisition or use of clients' confidential or non-public personal information.

In accordance with Regulation S-P, the Registrant is committed to protecting the privacy and security of its clients' non-public personal information by implementing appropriate administrative, technical, and physical safeguards. Registrant has established processes to mitigate the risks of cybersecurity incidents, including the requirement to restrict access to such sensitive data and to monitor its systems for potential breaches. Clients and Registrant are nonetheless subject to the risk of cybersecurity incidents that could ultimately cause them to incur financial losses and/or other adverse consequences.

Although the Registrant has established processes to reduce the risk of cybersecurity incidents, there is no guarantee that these efforts will always be successful, especially considering that the Registrant does not control the cybersecurity measures and policies employed by third-party service providers, issuers of securities, broker-dealers, qualified custodians, governmental and other regulatory authorities, exchanges, and other financial market operators and providers. In compliance with Regulation S-P, the Registrant will notify clients in the event of a data breach involving their non-public personal information as required by applicable state and federal laws.

Disclosure Statement. A copy of the Registrant's written Brochure and CRS, as set forth on Parts 2 and 3 of Form ADV, respectively, shall be provided to each client prior to the execution of any new advisory agreement.

- C. The Registrant shall provide investment advisory services specific to the needs of each client. Prior to providing investment advisory services, an investment adviser representative will ascertain each client's investment objective(s). Thereafter, the Registrant shall allocate and/or recommend that the client allocate investment assets consistent with the designated investment objective(s). The client may, at any time, impose reasonable restrictions, in writing, on the Registrant's services.
- D. The Registrant does not sponsor a wrap fee program. However, the Registrant may recommend or allocate a client's assets to a third-party manager who sponsors or participates in certain unaffiliated wrap programs ("Program Sponsors"). With respect to these wrap-fee programs, clients pay their fees directly to the Program Sponsors who, in turn, remit a portion of those fees to Registrant. The advisory fees remitted to Registrant are based upon an annual percentage of assets under management and are calculated by the Program Sponsors either in arrears or in advance.
- E. As of December 31, 2024, the Registrant had \$192,755,100 in assets under management on a discretionary basis and \$0 in assets under management on a non-discretionary basis.

Item 5 Fees and Compensation

A.

INVESTMENT ADVISORY SERVICES

If a client determines to engage the Registrant to provide discretionary or non-discretionary investment advisory services on a *fee* basis, the Registrant's annual investment advisory fee shall vary, from negotiable up to 1.50%. Fees shall vary depending upon various objective and subjective factors, including but not limited to: the amount of assets to be invested, the complexity of the engagement, the anticipated number of meetings and servicing needs, related accounts, future earning capacity, anticipated future additional assets, and negotiations with the client. As a result, similar clients could pay different fees, which will correspondingly impact a client's net account performance.

RETIREMENT PLAN SERVICES

The Registrant provides pension consulting services, in the capacity of a 3(21) advisor, pursuant to which it assists sponsors of self-directed retirement plans with the selection and/or monitoring of investment alternatives from which plan participants shall choose in self-directing the investments for their individual plan retirement accounts. The Registrant's annual fee for these services shall generally be negotiable up to 0.75% of the total assets maintained within the plan.

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

The Registrant may provide financial planning and/or consulting services (including investment and non-investment related matters, including estate planning, insurance planning, etc.) on a stand-alone fee basis. Registrant's planning and consulting fees are negotiable, but generally range up to \$10,000 on a fixed fee basis, or \$400 on an hourly rate basis depending upon the level and scope of the service(s) required and the professional(s) rendering the service(s).

- B. Clients may elect to have the Registrant's advisory fees deducted from their custodial account. Both Registrant's Agreement and the custodial/clearing agreement may authorize the custodian to debit the account for the amount of the Registrant's investment advisory fee and to directly remit that advisory fee to the Registrant in compliance with regulatory procedures. The Registrant may choose to engage third party service providers to assist with fee billing and processing.

When the Registrant bills the client directly, payment is due upon receipt of the Registrant's invoice.

As discussed below, unless the client directs otherwise or an individual client's circumstances require, Registrant shall generally recommend that Charles Schwab & Co. Inc. ("Schwab") serve as the custodian for client investment management assets.

Broker-dealers such as Schwab charge brokerage commissions, transaction, and/or other type fees for effecting certain types of securities transactions (i.e., including transaction fees for certain mutual funds, and mark-ups and mark-downs charged for fixed income transactions, etc.). The types of securities for which transaction fees, commissions, and/or other type fees (as well as the amount of those fees) shall differ depending upon the broker-dealer/custodian. While certain custodians, including Schwab, generally (with the potential

exception for large orders) do not currently charge fees on individual equity transactions (including ETFs), others do.

There can be no assurance that Schwab will not change their transaction fee pricing in the future.

Schwab may also assess fees to clients who elect to receive trade confirmations and account statements by regular mail rather than electronically.

Clients will incur, in addition to Registrant's investment management fee, brokerage commissions and/or transaction fees, and, relative to all mutual fund and exchange traded fund purchases, charges imposed at the fund level (e.g., management fees and other fund expenses).

- C. Registrant's annual investment advisory fee shall be prorated and paid monthly, in advance, based upon the market value of the assets on the last business day of the previous month, including any accrued interest. If a client maintains less than \$1,000,000 in assets under management with the Registrant, the Registrant may require an additional fee when providing certain financial planning services.

In conjunction with the Registrant's use of third-party account reporting services, clients will incur an additional annual administrative fee of \$40 per account.

However, the Registrant, in its sole discretion, may charge a lesser investment advisory fee, charge a flat fee, or waive its fee entirely based upon certain criteria (i.e., anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, complexity of the engagement, grandfathered fee schedules, Registrant employees and family members, courtesy accounts, competition, negotiations with client, etc.).

As result of the above, similarly situated clients could pay different fees. In addition, similar advisory services may be available from other investment advisers for similar, lower, or higher fees.

With the exception of a financial planning engagement on a project basis, which may automatically terminate upon the completion of the project, agreements between the Registrant and the client will continue in effect until terminated by either party by written notice in accordance with the terms of the Agreement. Upon termination, the Registrant shall refund to the client any unearned, prepaid fees.

- E. **Securities Commission Transactions.** In the event that the client desires, the client can engage certain of Registrant's representatives, in their individual capacities, as registered representatives of Lincoln Investment. ("Lincoln"), an SEC registered and FINRA member broker-dealer, to implement investment recommendations on a commission basis. In the event the client chooses to purchase investment products through Lincoln, Lincoln will charge brokerage commissions to effect securities transactions, a portion of which commissions Lincoln shall pay to Registrant's representatives, as applicable. The brokerage commissions charged by Lincoln may be higher or lower than those charged by other broker-dealers. In addition, Lincoln, relative to commission mutual fund purchases, may also receive additional ongoing 12b-1 trailing commission compensation directly from

the mutual fund company during the period that the client maintains the mutual fund investment.

1. The recommendation that a client purchase a commission product from Lincoln presents a conflict of interest, as the receipt of commissions may provide an incentive to recommend investment products based on commissions to be received, rather than on a particular client's need. No client is under any obligation to purchase any commission products from Registrant's representatives.
2. Clients may purchase investment products recommended by Registrant through other, non-affiliated broker dealers or agents.
3. The Registrant does not receive more than 50% of its revenue from advisory clients as a result of commissions or other compensation for the sale of investment products the Registrant recommends to its clients.
4. When Registrant's representatives sell an investment product on a commission basis, the Registrant does not charge an advisory fee in addition to the commissions paid by the client for such product. When providing services on an advisory fee basis, the Registrant's representatives do not also receive commission compensation for such advisory services. However, a client may engage the Registrant to provide investment management services on an advisory fee basis and separate from such advisory services purchase an investment product from Registrant's representatives on a separate commission basis.

Item 6 Performance-Based Fees and Side-by-Side Management

Neither the Registrant nor any supervised person of the Registrant accepts performance-based fees.

Item 7 Types of Clients

The Registrant's clients shall generally include individuals, business entities, trusts, estates and pension and profit-sharing plans.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

- A. The Registrant may utilize the following methods of security analysis:
- Fundamental - (analysis performed on historical and present data, with the goal of making financial forecasts)
 - Technical – (analysis performed on historical and present data, focusing on price and trade volume, to forecast the direction of prices)

The Registrant may utilize the following investment strategies when implementing investment advice given to clients:

- Long Term Purchases (securities held at least a year)
- Short Term Purchases (securities sold within a year)

- Options (contract for the purchase or sale of a security at a predetermined price during a specific period of time)

Investment Risk. Investing in securities involves risk of loss that clients should be prepared to bear. Different types of investments involve varying degrees of risk, and it should not be assumed that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended or undertaken by the Registrant) will be profitable or equal any specific performance level(s).

All investment strategies have certain risks that are borne by the investor. Although there is no way to list all risks involved with investing, the following are common risks born by the majority of investors:

Interest Rate Risk: Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, bond prices generally fall.

Market Risk: Asset prices may drop in reaction to certain unforeseen events. Also referred to as exogenous risk, this type of risk is caused by external factors independent of a security's particular underlying fundamentals or intrinsic value. For example, geo-political, economic, legislative, and/or societal events may amplify market risk.

Inflation Risk: When inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.

Currency Risk: Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.

Reinvestment Risk: This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e., interest rate). This primarily relates to fixed income securities.

Business Risk: These risks are associated with a particular industry or a particular company within an industry. Some industries and/or companies may have historically demonstrated more stability than others. Economic factors and business functions are constantly changing. Past results are no guarantee of future performance.

Liquidity Risk: Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product.

Financial Risk: Also referred to as leverage risk. Excessive borrowing to finance a business' operations may lead to financial strain and the ability to generate profits or meet certain obligations. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

Counterparty Risk: The risk that each party may not be able to meet its contractual obligations. This may also be referred to as default risk for fixed income investments. In rare circumstances, the underlying securities within registered investment products may become illiquid which may restrict the ability of investors to redeem shares at quoted prices.

Execution Risk: The risk that buy/sell transactions may not be executed at favorable prices. This may occur during periods of abnormal market conditions.

- B. The Registrant's methods of analysis and investment strategies do not present any significant or unusual risks. However, every method of analysis has its own inherent risks.

The Registrant's primary investment strategies - Long Term Purchases and Short Term Purchases are fundamental investment strategies. However, every investment strategy has its own inherent risks and limitations. For example, longer term investment strategies require a longer investment time period to allow for the strategy to potentially develop. Shorter term investment strategies require a shorter investment time period to potentially develop but, as a result of more frequent trading, may incur higher transactional costs when compared to a longer term investment strategy.

Options Strategies.

In limited situations, Registrant may engage in options transactions (or engage an independent investment manager to do so) for the purpose of hedging risk and/or generating portfolio income. The use of options transactions as an investment strategy can involve a high level of inherent risk.

Option transactions establish a contract between two parties concerning the buying or selling of an asset at a predetermined price during a specific period of time. During the term of the option contract, the buyer of the option gains the right to demand fulfillment by the seller. Fulfillment may take the form of either selling or purchasing a security, depending upon the nature of the option contract. Generally, the purchase or sale of an option contract shall be with the intent of "hedging" a potential market risk in a client's portfolio and/or generating income for a client's portfolio.

- C. Currently, the Registrant primarily recommends that clients allocate investment assets among various individual equity (stocks), debt (bonds) and fixed income securities, mutual funds and ETFs on a discretionary and/or non-discretionary basis in accordance with the client's designated investment objective(s).

Item 9 Disciplinary Information

The Registrant has not been the subject of any disciplinary actions.

Item 10 Other Financial Industry Activities and Affiliations

- A. As disclosed above in Item 5.E, certain of Registrant's representatives are registered representatives of Lincoln, an SEC registered and FINRA member broker-dealer. Some or all of Registrant's Investment Adviser Representatives ("IARs") are also licensed as registered representatives of Lincoln Investment Planning, LLC ("Lincoln"), a dually registered broker-dealer and investment adviser. As such, your IAR may also act as agent and offer to you securities (such as mutual funds, annuities, stocks, or bonds) or insurance, or other advisory services offered by Lincoln Investment or its affiliated companies. If you choose to engage with IAR and acquire these other services or products, the IAR may receive additional compensation.

Lincoln and Registrant are not affiliated, and each is separately responsible for complying with the rules and regulations of the Investment Advisers Act of 1940 and/or any applicable states' rules and regulations relating to investment advisory activities. Lincoln neither

conducts due diligence of the Registrant's advisory services nor endorses any advisory services offered by Registrant.

Your Investment Adviser Representative and Registrant must disclose or make available to Lincoln, confidential information about its customers. Lincoln shall only use this information for its broker dealer supervisory purposes. Your Investment Adviser Representative and Registrant have entered into a confidentiality agreement with Lincoln to ensure your information is protected.

- B. Neither the Registrant, nor its representatives, are registered or have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading advisor, or a representative of the foregoing.
- C. **Broker Dealer.** Certain of Registrant's representatives are registered representatives of Lincoln, an SEC registered and FINRA member broker-dealer. Clients can choose to engage Registrant's representatives, in their individual capacities, to effect securities brokerage transactions on a commission basis.

Licensed Insurance Agency and Agents. The Registrant is licensed as an Insurance Agency in the Commonwealth of Pennsylvania. Furthermore, certain of the Registrant's representatives, in their individual capacities, are licensed insurance agents. These individuals may recommend the purchase of certain insurance-related products on a commission basis.

Conflict of Interest: The recommendation by Registrant's representatives that a client purchase a securities or insurance commission product presents a conflict of interest, as the receipt of commissions may provide an incentive to recommend securities or insurance products based on commissions to be received, rather than on a particular client's need. No client is under any obligation to purchase any commission products from Registrant's representatives. Clients are reminded that they may purchase securities or insurance products recommended by Registrant through other, non-affiliated registered representatives of a broker-dealer, insurance agencies or insurance agents.

- D. The Registrant does not receive, directly or indirectly, compensation from investment advisors that it recommends or selects for its clients.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

- A. The Registrant maintains an investment policy relative to personal securities transactions. This investment policy is part of Registrant's overall Code of Ethics, which serves to establish a standard of business conduct for all of Registrant's Representatives that is based upon fundamental principles of openness, integrity, honesty and trust, a copy of which is available upon request.

In accordance with Section 204A of the Investment Advisers Act of 1940, the Registrant also maintains and enforces written policies reasonably designed to prevent the misuse of material non-public information by the Registrant or any person associated with the Registrant.

- B. Neither the Registrant nor any related person of Registrant recommends, buys, or sells for client accounts, securities in which the Registrant or any related person of Registrant has a material financial interest.
- C. The Registrant and/or representatives of the Registrant *may* buy or sell securities that are also recommended to clients. This practice may create a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a conflict of interest. Practices such as “scalping” (i.e., a practice whereby the owner of shares of a security recommends that security for investment and then immediately sells it at a profit upon the rise in the market price which follows the recommendation) could take place if the Registrant did not have adequate policies in place to detect such activities. In addition, this requirement can help detect insider trading, “front-running” (i.e., personal trades executed prior to those of the Registrant’s clients) and other potentially abusive practices.

The Registrant has a personal securities transaction policy in place to monitor the personal securities transactions and securities holdings of each of the Registrant’s “Access Persons”. The Registrant’s securities transaction policy requires that an Access Person of the Registrant must provide the Chief Compliance Officer or his/her designee with a written report of their current securities holdings within ten (10) days after becoming an Access Person. Additionally, each Access Person must provide or make available to the Chief Compliance Officer or his/her designee a list of reportable transactions each calendar quarter as well as a written annual report of the Access Person’s securities holdings; provided, however that at any time that the Registrant has only one Access Person, he or she shall not be required to submit any securities report described above.

- D. The Registrant and/or representatives of the Registrant *may* buy or sell securities, at or around the same time as those securities are recommended to clients. This practice creates a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a conflict of interest. As indicated above in Item 11 C, the Registrant has a personal securities transaction policy in place to monitor the personal securities transaction and securities holdings of each of Registrant’s Access Persons.

Item 12 Brokerage Practices

- A. In the event that the client requests that Registrant recommend a custodian for execution and/or custodial services (exclusive of those clients that may direct Registrant to use a specific custodian), Registrant recommends that investment management accounts be maintained at Schwab. Prior to engaging Registrant to provide investment management services, the client will be required to enter into a formal advisory agreement with the Registrant setting forth the terms and conditions under which Registrant shall manage the client's assets, and a separate custodial/clearing agreement with each designated custodian.

Factors that Registrant considers in recommending Schwab (or any other custodian to clients) include historical relationship with Registrant, financial strength, reputation, execution capabilities, pricing, research, and service. Although the commissions and/or transaction fees paid by Registrant's clients shall comply with Registrant's duty to seek best execution, a client may pay a commission that is higher than another qualified custodian might charge to affect the same transaction where Registrant determines, in good faith, that

the commission/transaction fee is reasonable. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a custodian's services, including the value of research provided, execution capability, commission rates, and responsiveness. Accordingly, although Registrant will seek competitive rates, it may not necessarily obtain the lowest possible commission rates for client account transactions. The brokerage commissions or transaction fees charged by the designated custodian are exclusive of, and in addition to, Registrant's investment management fee. Registrant's best execution responsibility is qualified if securities that it purchases for client accounts are mutual funds that trade at net asset value as determined at the daily market close.

1. Research and Additional Benefits

Although not a material consideration when determining whether to recommend that a client utilize the services of a particular custodian, Registrant receives from Schwab (or another custodian, investment platform, unaffiliated investment manager, vendor, unaffiliated product/fund sponsor, or vendor) without cost (and/or at a discount) support services and/or products, certain of which assist Registrant to better monitor and service client accounts maintained at such institutions. Included within the support services that may be obtained by Registrant may be investment-related research, pricing information and market data, software and other technology that provide access to client account data, compliance and/or practice management-related publications, discounted or gratis consulting services, discounted and/or gratis attendance at conferences, meetings, and other educational and/or social events, marketing support, computer hardware and/or software and/or other products used by Registrant in furtherance of its investment advisory business operations.

As indicated above, certain of the support services and/or products received may assist Registrant in managing and administering client accounts. Others do not directly provide such assistance, but rather assist Registrant to manage and further develop its business enterprise.

There is no corresponding commitment made by Registrant to Schwab or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement.

2. Registrant does not receive referrals from broker-dealers.
3. Registrant does not generally accept directed brokerage arrangements (when a client requires that account transactions be affected through a specific broker-dealer). In such client directed arrangements, the client will negotiate terms and arrangements for their account with that broker-dealer, and Registrant will not seek better execution services or prices from other broker-dealers or be able to "batch" the client's transactions for execution through other broker-dealers with orders for other accounts managed by Registrant. As a result, client may pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case.

In the event that the client directs Registrant to effect securities transactions for the client's accounts through a specific broker-dealer, the client correspondingly acknowledges that such direction may cause the accounts to incur higher commissions or transaction costs than the accounts would otherwise incur had the client determined to effect account

transactions through alternative clearing arrangements that may be available through Registrant. Higher transaction costs adversely impact account performance.

Transactions for directed accounts will generally be executed following the execution of portfolio transactions for non-directed accounts.

- B. To the extent that the Registrant provides investment management services to its clients, the transactions for each client account generally will be effected independently, unless the Registrant decides to purchase or sell the same securities for several clients at approximately the same time. The Registrant may (but is not obligated to) combine or “bunch” such orders to seek best execution, to negotiate more favorable commission rates or to allocate equitably among the Registrant’s clients differences in prices and commissions or other transaction costs that might have been obtained had such orders been placed independently. Under this procedure, transactions will be averaged as to price and will be allocated among clients in proportion to the purchase and sale orders placed for each client account on any given day. The Registrant shall not receive any additional compensation or remuneration as a result of such aggregation.

Item 13 Review of Accounts

- A. For those clients to whom Registrant provides investment supervisory services, account reviews are conducted on an ongoing basis by the Registrant’s Managing Members and/or representatives. All investment supervisory clients are advised that it remains their responsibility to advise the Registrant of any changes in their investment objectives and/or financial situation. All clients (in person or via telephone) are encouraged to review financial planning issues (to the extent applicable), investment objectives and account performance with the Registrant on an annual basis.
- B. The Registrant may conduct account reviews on an other than periodic basis upon the occurrence of a triggering event, such as a change in client investment objectives and/or financial situation, market corrections and client request.
- C. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance.

Item 14 Client Referrals and Other Compensation

- A. As referenced in Item 12.A.1 above, the Registrant receives an economic benefit from broker-dealers. The Registrant, without cost (and/or at a discount), receives support services and/or products from broker-dealers.

There is no corresponding commitment made by the Registrant to a broker-dealer or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement.

- B. Neither the Registrant nor its representatives compensate any non-supervised persons for client referrals.

Item 15 Custody

The Registrant shall have the ability to have its advisory fee for each client debited by the custodian on a monthly basis. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance.

To the extent that the Registrant provides clients with periodic account statements or reports, the client is urged to compare any statement or report provided by the Registrant with the account statements received from the account custodian.

The account custodian does not verify the accuracy of the Registrant's advisory fee calculation.

Item 16 Investment Discretion

The client can determine to engage the Registrant to provide investment advisory services on a discretionary basis. Prior to the Registrant assuming discretionary authority over a client's account, the client shall be required to execute an *Investment Advisory Agreement*, naming the Registrant as the client's attorney and agent in fact, granting the Registrant full authority to buy, sell, or otherwise effect investment transactions involving the assets in the client's name found in the discretionary account.

Clients who engage the Registrant on a discretionary basis may, at any time, impose reasonable restrictions, in writing, on the Registrant's discretionary authority (i.e., limit the types/amounts of particular securities purchased for their account, exclude the ability to purchase securities with an inverse relationship to the market, limit or proscribe the Registrant's use of margin, etc.). Any restrictions on the Registrant's discretionary authority must be acknowledged by the Registration prior to becoming effective.

Item 17 Voting Client Securities

- A. The Registrant does not vote client proxies. Clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets.
- B. Clients will receive their proxies or other solicitations directly from their custodian. Clients may contact the Registrant to discuss any questions they may have with a particular solicitation.

Item 18 Financial Information

- A. The Registrant does not require clients to pay fees of more than \$1,200, per client, six months or more in advance.

- B. The Registrant is unaware of any financial condition that is reasonably likely to impair its ability to meet its contractual commitments relating to its discretionary authority over certain client accounts.
- C. The Registrant has not been the subject of a bankruptcy petition.

The Registrant's Chief Compliance Officer, Maria Stewart, remains available to address any questions that a client or prospective client may have regarding the disclosures in this Brochure.
